

*Mockingbird Ventures Seed Fund is a true, seed-stage micro fund focused on getting TX entrepreneurs capital to validate their concepts and guidance to execute their vision.*

**Our investment criteria centers around six principles:**

-  Startups must be located in Texas, emphasis on the DFW metroplex
-  We invest in very early-stage rounds, just after Friends and Family
-  \$4M is the max valuation we will consider
-  The founder must be working on the startup full-time
-  The deck must be high quality, including a realistic financial model
-  An identifiable market should be clear and obvious

**If your company meets the above criteria, email:**
